EVENT 95 – A QUESTION OF SINGULARITY

Awareness makes you first to notice repetition. You'll set perimeters when no one else thinks to. In Act Three, when Vorn orders withdrawal, the crew looks to you: follow orders, or stay for the science?
KEY: Awareness · Tactics · Combat if loops turn physical

EVENT 96 – IS LOVE THE ANSWER?

You read Ghresh-Ka before the crew does – converging, not hostile yet. If RR'raan challenges him directly, back them. It's the only gambit. Your job if it goes to a fight is to buy time, not to win.
KEY: Tactics · Awareness · First Aid if crew hit
